

Vegan leather

HANDMADE IN ITALY

Beautiful vegan leather promotional products made by hand in Italy. The vegan leather looks and feels like animal leather and has the same lifespan.

By using this alternative to traditional leather, direct greenhouse gas emissions are reduced, no pollution from tanning and washing and no reliance on live animals for the materials. **Exceptional durable!**

Ecological

Vegan Leather

Made in Italy

What exactly is vegan leather?

- Looks like leather, feels like leather and is tough like leather.
- The material is not of animal origin, and is therefore vegan.
- The production process has a smaller carbon footprint.
- The high quality is visible in the finish, the look and feel, the rich texture and the bright colours.
- Vegan leather is a sustainable and ethical alternative to traditional leather.
