Grow your own tree!

Surprise and delight your customers

The fruit bough is placed in a well-designed box, which contains information about the Baby Tree and Baby Plant. The box of the Baby Tree or Plant can be branded in several ways.

Personal characters with birth certificate.
All ingredients present in a Do-It-Yourself packaging.

Get free step-by-step instructional videos on the Baby Tree Community. Receive free growth assistance from Pim, the grower.

A durable and educational product in a DIY package including bamboo stick, nutrition tablet, bag with compost binding material and birth certificate.
With a little care and love, the tree can grow into a well-producing fruit tree. The graft is not a mature tree but a 'Baby Tree'. A baby tree can be planted in the garden, in a pot and is also suitable for balcony.

4 Types of fruit
- apple
- blueberry
- cherry
- pear

How to customize
- customize the packaging
- a full colour printed sleeve
- a full colour printed hangtag
- a combination of these

Available all year round

Because the product is perishable we advise to plant the Baby Tree or Baby Plant within two weeks' time.

Choice of 4 types of fruit with each own personal character:

- Tobias the Apple tree
- Nova the Cherry tree
- Sophia the Pear tree
- Barry the Blueberry plant

Customized box   **Custom sleeve**   **Custom hangtag**
